

PROFESSIONAL, PERSONALIZED, CONFIDENTIAL, CARE FOR STUDENT CONCERNS

The Student Counseling Center (SCC) is dedicated to supporting the institutional mission of LC State by supporting students in their pursuit of their academic endeavors. The SCC is specifically committed to providing professional, personalized, confidential care for students and to provide relevant behavioral health awareness, prevention and outreach services to our students and to the entire campus community.

Eligibility for SCC services:

Students are eligible for free counseling services if they are:

- Enrolled for at least one course credit for the semester in which they are requesting services.
- Registered in the immediate, previous spring term and attending the upcoming fall term and request to receive services over summer.
- 18 years or older, at time they request SCC services. Minor students (under age 18) are eligible for services with parental authorization.

Ineligible criteria include:

- Minor students, not granted parental authorization as mentioned above, are referred to other community providers and campus community resources until they are age 18, wherein they can enter services at that time.
- Students who are also benefit-eligible employees or dual-enrolled high school students will be referred to outside resources (e.g. EAP or high school counselors).
- Students residing outside the state of Idaho are not able to receive tele counseling services currently, due to relevant state counseling laws and regulations. Students interested in counseling services should contact local providers in their community. A consultation appointment with an LC State counselor may be appropriate to assist with choosing an appropriate referral and to address other supports that LC State may have to assist with student needs and their academic success.
